

**D** MOTOR GRADERS

**THE NEW D-SERIES MOTOR GRADERS: GRADE A**

# Superior grades.

The new D-Series Motor Graders are destined to be operator favorites. How can we be so certain? Because they've already produced superior grades in a wide variety of applications and earned high marks from veteran operators throughout North America. This new line delivers exceptional control, visibility, and operating ease. **Packed with numerous best-in-class productivity- and uptime-boosting advantages, the D-Series will help you achieve better grades, too.**

ENGINE	Net Horsepower	Operating Weight	Blade Pull	Drive
<b>670D</b>	185 (138 kW) @ 2,000 rpm	32,010 lb. (14 519 kg)	28,220 lb. (12 800 kg)	Tandem
