

TS4080

HIGH CAPACITY STOCKPILING

The newly designed TS4080 is McCloskey International's newest addition to the materials handling division. Designed to allow operators to stockpile/transfer material directly from mobile crushing and screening plants it offers the perfect solution to all your material handling needs. It offers the flexibility and mobility needed to ensure that the stockpiling process is as fast and efficient as possible, it eliminates the use of a loader and also the double handling of materials.

The unit can also be containerized for transport, with minimal setup time, substantially reducing transport costs.

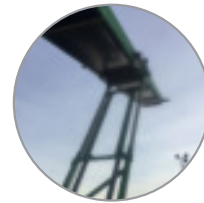

TRACKED OR WHEELED MOBILITY

For maximum mobility, tracks allow the stacker to be easily moved on its own. 4 meter tracks deliver superior maneuverability and stability.

TRANSPORT FRIENDLY

At only 2.34m wide, the TS4080 is easily transported between job sites.

ADJUSTABLE HEIGHT

Hydraulically adjustable discharge and feed in height complements crushing and screening plants.

FULL SAFETY GUARDING
Full-length flashing minimizes nip points, increasing safety.

OPTIONAL RADIO REMOTE

Provides remote maneuverability and enhances safety for moving freely to the best location.

Engine - Power Unit	Diesel or Dual Power Option
Transport Height	2.6m (8' 6")
Transport Length	11.7m (38' 8")
Transport Width	2.34m (7' 8")
Weight	12,700kg (27,998 lb)
Stockpile Height	8.89m (29' 2")
Stockpile Capacity	1300m ³ (1700 yds ³)
Production	450 TPH
Belt	40" (1000MM) Heavy Duty - 3 ply
