HITACHI

Reliable Solutions

ZAXIS135us

HYDRAULIC EXCAVATOR

Model code : ZX135-7H Engine rated power : 78.5 kW Operating weight : 14 200 – 15 900 kg Bucket capacity : 0.52 m³

YOU'RE IN Control

You're at the heart of Hitachi's design for its latest range of excavators. To continuously improve on previous generation machines we've focused on enhancing your experience in the cab as an operator.

We've considered the challenges you face as the owner of a successful business. And we've zoomed in on the ways in which we can support you over the life cycle of your machine.

By putting you at the heart of the Zaxis-7 range, we invite you to take control – over your workspace and your fleet. And by working in partnership, we will help you to create your vision.

INSIDE

4. Complete Control In control of your assets

11. Control Zone Feel the difference

6. Increase your safety Be in control of your environment

12. Get More from your machine In control of your performance

8. Boost your uptime Improve your profit

13. Specifications Know your machine

COMPLETE Control

The new Zaxis-7 range of medium excavators puts you firmly in control, so you can feel assured of your machine's performance and supported by the technological expertise and services that Hitachi provides.

ZA/IS

The expanded cab interior provides a more comfortable working environment.

Integrated console and seat suspension gives a greater sense of control, and helps to reduce fatigue.

Visibility of the job site is excellent thanks to the Aerial Angle® camera system and new LCD monitor.

Sensors monitor oil continuously and contribute to preventative maintenance, helping to reduce downtime.

ConSite Pocket app allows you to manage and monitor your fleet remotely.

Options such as Hitachi ground engaging tools enable you to enhance the performance of your excavator.

Improved access to components ensures maintenance is quick and easy.

The new HIOS-IV hydraulic system reduces fuel consumption and increases efficiency.

The ECO gauge on the monitor indicates how to lower fuel consumption and reduce costs.

INCREASE YOUR SAFE

Your ability to work safely is vital, not only for your own wellbeing, but also for the successful completion of any project. To protect yourself and your machine from potential hazards, the new Hitachi Zaxis-7 excavators give you a superior view of your surroundings, so you can see the job site from all angles.

HITACHI

The visibility you enjoy from the cab includes an exceptional 270-degree bird's-eye view with the Aerial Angle[®] camera system. You can choose from six image options to view the machine's immediate environment, which enables you to control your own safety – as well as that of those around you.

To help you to work more confidently and efficiently, even in the most challenging of conditions, Zaxis-7 excavators are fitted with some impressive new features. From the LED work lights and the windscreen wiper with an increased sweeping area, to the large reflective strips on the counterweight and roller sunshades, you'll have the visibility you need when it matters most.

Attention to detail is also fundamental to a safe working environment – and the repositioning of the pilot shutoff lever is a perfect example. It is now within easy reach to prevent any unintentional actions.

↓erial **↓**ngle°

The pilot shutoff lever offers enhanced safety in the cab.

Choose between different image layouts to suit your working environment.

LED work lights improve visibility in challenging conditions.

BOOST YOUR UPTIME

Completing a project on time and on budget depends on the ability of your construction equipment to perform all day, every day. That's why Hitachi owners have profited from generations of ultra-reliable and durable machinery – and the Zaxis-7 range is no exception.

The latest Hitachi medium excavators have been built to last, so that you can remain in complete control of your assets. They have been tested rigorously and continuously at dedicated facilities in Japan with the goal of significantly boosting your uptime.

As a result, a wide range of durable new components have been fitted to the latest Stage-IV compliant machines – even down to the detail of the rigidity of the door hinges. Now standard on our Zaxis-7 range are hydraulic and engine oil monitoring sensors that help to reduce downtime and running costs.

Downtime is prevented by the durable after-treatment system, and also minimised by the priority given to easy maintenance and cleaning – saving you time and money. Peace of mind comes from such features as the two-way disconnect switch. This makes it possible to shut down power without resetting data on the monitor and prevents the battery from discharging during welding.

Durable after-treatment system prevents downtime.

Filters and separator are conveniently located for ease of inspection and replacement.

The air conditioner condenser can be opened for easy cleaning of the condenser and radiator located behind it.

Improvements to the undercarriage have enhanced durability.

Designed for durability and easy maintenance, Zaxis-7 excavators increase uptime and reduce the total cost of ownership.

CONTROL ZONE

Enhanced comfort and safety features are at your fingertips in the refined cab of Zaxis-7 excavators, giving you the power to perform productively, with ease and reduced fatigue.

- (1) Increased sweeping area of wide view wiper enhances visibility in difficult working conditions. *(Option only)
- (2) Air conditioning and audio are easily controlled via the monitor.
- 3 Low-reflective colour 8" LCD monitor is easy to view and navigate.
- (4) USB power supply and smartphone holder helps you stay connected.
- 5 Drinks holder is easy to detach for cleaning.
- 6 Additional joystick controls for effortless operation.
- **The second seco**
- 8 Bluetooth® for hands-free calls and DAB+ radio for music while you work.

- **9** Multifunctional control panel makes operation easier.
- **Improved sound isolation** makes this one of the quietest cabs in the market.
- (1) User-friendly storage space keeps your workspace tidy and clutter-free.
- (12) 12v and 24v outlets for your electrical devices.
- (3) One-touch adjustment lever for console so you can work comfortably in the optimum position.
- Integrated console and seat suspension gives a greater sense of control and helps to reduce fatigue.
- (15) Increased legroom creates a more spacious cab.
- (16) Optimal pedal layout helps to reduce fatigue.

Operation is easy with ergonomically designed controls and switches.

Bluetooth® connection for hands-free calls while you work.

GET MORE FROM Your Machine

Designed to work in perfect harmony with your machine, Hitachi preferred durable hydraulic breakers, hydraulic hitches, buckets and Ground Engaging Tools (GET) will increase your profit by maximising productivity and uptime. Manufactured to the same high standards as all Hitachi construction equipment, they offer unrivalled reliability and exceptional performance.

Buckets

You can increase the versatility of your excavator by choosing the right bucket for the job. For loading light materials or heavy-duty work, Hitachi buckets can be customised to meet your needs. You have a wide range of options to choose from Hitachi supplied buckets with different capacities and widths.

Ground engaging tools

You can enhance the digging power and productivity of your excavator or wheel loader with Hitachi GET. Quick and safe to install and replace, they fit precisely to your attachments and can be tailored to suit the task. Using Hitachi GET can reduce your maintenance costs and downtime, lower fuel consumption and enhance the overall performance of your machine.

Breakers

High-performance hydraulic breakers – approved by Hitachi – are perfectly suited to medium excavators. They are easy to maintain and user-friendly, and their high-quality materials ensure a long lifetime. This means reduced maintenance costs, fewer replacement parts and minimal downtime.

Attachments can be customised to suit the application.

Breakers are lightweight with high impact energy.

Hitachi GET include teeth and reliable adapters to ensure a precise fit. *Not available in all markets

High performance hydraulic quick hitches approved by Hitachi.

MACHINE CAPACITIES

A: Load radius

B: Load point heigh

C: Machine capaci

Notes: 1. Ratings are based on ISO 10567 : 2007.

- 2. Machine capacity does not exceed 75% of tipping load with the machine on firm,
- level ground or 87% full hydraulic capacity.
- 3. The load point is the center-line of the bucket pivot mounting pin on the arm.
- 4. *Indicates load limited by hydraulic capacity.
- 5. 0 m = Ground.

For machine capacities, subtract installed attachment and quick hitch weight from machine capacities.

To determine lifting capacities, apply "Rating over-side or 360 degrees" machine capacities from the table and deduct weight of installed attachment and quick hitch Optional feature may affect machine performance.

САВ		ZX135US-7н
All-weather sound suppressed steel ca	b	•
Auto control air conditioner		•
AUX function lever (breaker assist)		•
Bluetooth® integrated DAB+radio		•
Cab : OPG top guard Level I		•
(ISO 10262 : 1998) compliant Cab : ROPS (ISO 12117-2 : 2008) compl	iant	•
Console height adjuctment		•
Control lever auto-lock		•
CRES VII (center pillar reinforced structu	ire) cab	•
Drink holder with hot and cool function		•
Electric double horn		•
Engine shut-off switch		•
Equipped with reinforced,tinted (green of	color) glass windows	•
Evacuation hammer	state windows	•
Floor mat		•
Footrest		•
Front guard : OPG front guard Level II (ISO 10262 : 1998) compliant		0
Front Window washer (1point)		•
Glove compartment		•
Hands-free calling device		•
Hot and cool box		-
Intermittent windshield wipers		•
Key cylinder light		•
LED room light		•
Magazine rack		•
Pilot shut-off lever		•
Power outlet 12 V and 24 V		•
Push button low idle		•
Rain guard (without OPG front guard)		0
Rear tray		•
Retractable seat belt		•
Rubber radio antenna		•
Seat : air suspension seat with heater		•
Seat adjustment part : backrest, armressilide forward / back	st, height and angle,	•
Seat belt reminder		•
Short wrist control levers		•
Smartphone holder		•
Sunscreen roller type (multi-use front or side and rear window	J)	•
Top guard : OPG top guard Level II (ISO 10262 : 1998) compliant		0
Transparent roof with slide curtain		•
USB power supply		•
Windows on front, upper, lower and left	side can be opened	•
2 speakers		•
4 fluid-filled elastic mounts		•
8 inch monitor		•

MONITOR SYSTEM	ZX135US-7н
Alarms: overheat, engine warning, engine oil pressure, alternator, minimum fuel level,air filter restriction,work mode, overload, etc	•
Alarm buzzers: overheat, engine oil pressure, overload, etc	•
Display of meters: water temperature, hour, fuel rate, clock, etc	•
Other diaplays: work mode, auto-idle, glow, rearview monitor, operating conditions, etc	•
35 language selection	•

LIGHTS	ZX135US-7н
Additional boom LED light with cover	0
Additional cab roof front LED lights	•
Additional cab roof rear LED lights	•
LED lights for camera (side and rear view camera)	•
Rotating lamp	0
2 working LED lights	•

UPPER STRUCTURE	ZX135US-7н
AERIAL ANGLE (270-degree view camera system)	•
Batteries 2 x 12 V	•
Battery disconnect switch	•
Body top handrail	•
Cab top handhold	•
Counterweight 4 300 kg	•
Fuel level float	•
Hydraulic oil level gauge	•
Lockable fuel refilling cap	•
Lockable machine covers	•
Lockable tool box	•
Platform handrail	•
Side view mirror (right and left)	•
Skid-resistant plates	•
Swing parking brake	•
Undercover	•
Undercover 6.0mm reinforced	0

•: Standard equipment O: Optional equipment -: Not applicable

UNDERCARRIAGE	ZX135US-7н
Bolt-on sprocket	•
Blade 2 690 mm	0
Greasing type track adjuster	•
Reinforced track links with pin seals	•
Shoe: 500 mm triple grouser	•
Shoe: 600, 700 mm triple grouser	0
Towing hole for light weight object	•
Track undercover	•
Travel direction mark on track frame	•
Travel motor covers	•
Travel parking brake	•
Upper and lower rollers	•
1 track guard (each side)	•
2 track guards (each side)	0
4 tie down brackets	•

FRONT ATTACHMENTS	ZX135US-7н
Arm tip remote lubrication	•
Casted bucket link A	•
Centralized lubrication system	•
Dirt seal on all bucket pins	•
Flanged pin	•
HN bushing	•
Lower arm reinforcement	•
Reinforced bucket link B	•
Reinforced resin thrust plate	•
WC (tungsten-carbide) thermal spraying	•

ATTACHMENTS	ZX135US-7н
Accessories for 2 speed selector	0
Additional pump or PTO valve	0
Assist piping	•
Breaker and crusher piping	•
Pilot accumulator	•

MISCELLANEOUS	ZX135US-7н
ConSite	•
Global e-service	•
Level indicator	•
Onboard information controller	•
Satellite communication system unit	•
Standard tool kit	•
Travel alarm	•

Standard and optional equipment may vary by country, so please consult your authorised dealer for details. *Engine oil and hydraulic oil monitoring sensor.

Prior to operating this machine, including satellite communication system, in a country other than a country of its intended use, it may be necessary to make modifications to it so that it complies with the local regulatory standards (including safety standards) and legal requirements of that particular country. Please do not export or operate this machine outside the country of its intended use until such compliance has been confirmed. Please contact your Hitachi dealer in case of questions about compliance.
